- Inverclyde Council
- Renfrewshire Council
- Scottish Executive
- Sustrans

# Paisley and Clyde Coast Railway Path

This 20 mile cycleway and footpath forms part of the Clyde to Forth National Cycle Route. It starts at Paisley Canal Railway Station and follows the same route as National Cycle Network Route 7 until Johnstone. It then crosses attractive open country between Bridge of Weir and Kilmacolm, before reaching Port Glasgow and Greenock on the Firth of Clyde. It passes the railway station and ferry terminal in Gourock and ends at the ferry terminal at McInroy's Point. Ferries sail to Dunoon, a gateway to the Argyll area of the Loch Lomond and The Trossachs National Park.

Bridge of Weir

The route is mainly traffic-free to Port Glasgow apart from short sections through Elderslie, Kilmacolm, and Boglestone. There are some steep gradients between Port Glasgow and Greenock, where the route mainly follows public roads. There is wheelchair access to the whole route.

**Sustrans** - the sustainable transport charity - works on practical projects to encourage people to walk, cycle and use public transport in order to reduce motor traffic and its adverse effects. A map for the Clyde to Forth Cycle Route (Glasgow to Edinburgh) is available for £5.99 - Please call 08485 113 0065 or visit [www.nationalcyclenetwork.org.uk](http://www.nationalcyclenetwork.org.uk)

**The National Cycle Network** is a comprehensive network of safe and attractive routes to cycle throughout the UK. 10,000 miles are due for completion by 2005, one third of which will be on traffic-free paths - the rest will follow quiet lanes or traffic-calmed roads. It is delivered through the policies and programmes of over 450 local authorities and other partners, and is co-ordinated by the charity Sustrans.
