

# BCR/SUSTRANS DIY STREETS PILOT SCHEME DRAFT 10.3 to accompany map 10.3

PREPARED BY BEECH CROFT RESIDENTS' ASSOCIATION (BCRA) Date 18-05-09

Contact: Ted Dewan, 37 Beech Croft Road, Oxford OX2 7AY, 01865-553-517  
headwitch@roadwitch.org.uk

This illustrated summary of items proposed to be included with the *BCR/Sustrans DIY Streets Pilot Scheme* accompany the corresponding map titled: BEECH CROFT ROAD PROPOSED STREET PLAN DRAFT 10.3.

Sustrans has created a CAD version and tracked it for emergency vehicles.  
All three-dimensional features to be fitted with reflective devices for safety at night.

The following items correspond to site numbers on proposal map draft 10.3

## SECTION 1: PLANTERS

**ITEMS 2, 15**  
**Large Tree Planter**

Fibreglass simulated stone

Size: 180W X 120H cms

reflector material along rim as for  
bollard standard

Available from [www.tendercare.co.uk](http://www.tendercare.co.uk)

**ITEMS 4, 9, 10, 13**  
**(and alternate for 2, 15)**  
**Small Tree/Shrub Planter**

Fibreglass simulated stone

Size: 80W X 100H cms

arranged at 45° to kerb line

vertical reflectors along edges

Available from  
[www.tendercare.co.uk](http://www.tendercare.co.uk)

**ITEM 8: (2) X Trellis-back planters**

Pine and spruce.

Size: 60w x 28d x 100h cms

furthest edge of planter to sit maxi-  
mum 230cm from curb

reflector edges

Available from  
[www.redskyliving.co.uk](http://www.redskyliving.co.uk)

## SECTION 2: TABLES AND CYCLE RACKS

**ITEM 7: Standard wood picnic table**

Seating positioned perpendicular to kerb

W=180cm (into streetspace), D=140cm, H=70cm

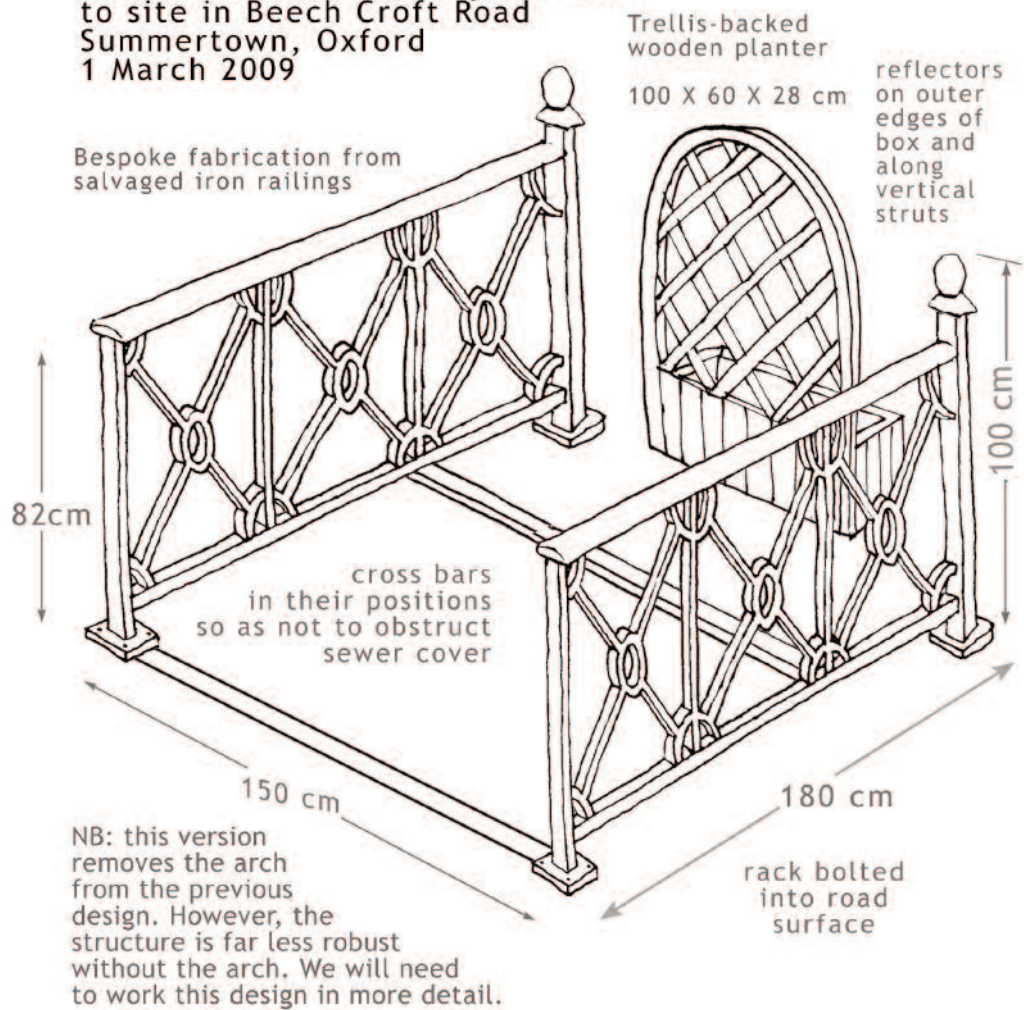

bolted into street, removable by adjacent resident to allow works access to front of property if necessary.

**ITEM 6: "Victorian" cycle rack**

Fabricated from architectural salvage iron

Free-standing construction and bolted into street positioned to allow easy access to sewer cover

**Victorian cast-iron cycle rack to site in Beech Croft Road Summertown, Oxford 1 March 2009**

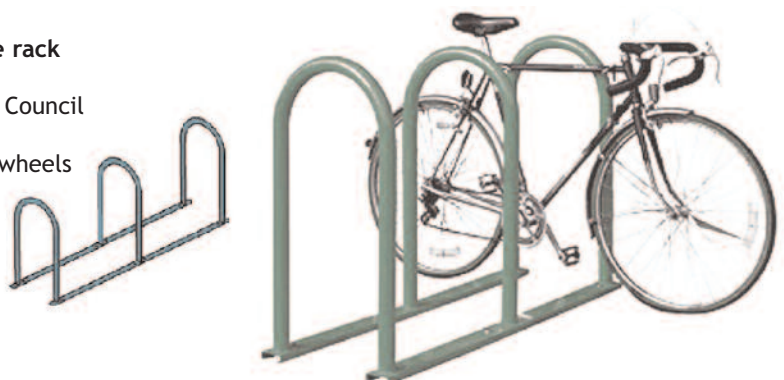

**ITEMS 12, 14 : Triple-hoop or 'Sheffield' cycle rack**

Design to be determined by Oxfordshire County Council

Design needs to offer some protection of cycle wheels from passing motor traffic

Residents are also considering a "period" style cycle rack composed of salvaged iron architectural elements.

# BCR/SUSTRANS DIY STREETS PILOT SCHEME DRAFT 10.3 to accompany map 10.3

## SECTION 3: ROAD PAINT PATTERN

ITEMS 1, 3, 5, 11, 16, 18  
Road paint pattern

Hard-wearing tennis court paint sprayed onto road surface through brick-pattern stencils or masking taped onto road surface to create a series of 'carpets'

Two sizes:  
large area = approx 10m X 5m  
small area = approx 5m X 5m

Design reflects the existing Victorian tile pattern on most residents' front walks.

Colours need to avoid conflict with existing highway code colours. Colours must be custom-mixed to match the existing Victorian tiles: terracotta and yellow ochre.

Each 'tile' approx 27.5 cm square

Shown here are variations on the Victorian Tile road-paint theme. This theme has been voted on by the residents of BCR, but the final design can be decided by the BCRA in consultation with the County Council.
