## Cargo Bike Library

Connection to your customers  
Convenience for your business

## Borrow a Cargo Bike for Free

We have a range of electric cargo bikes to make it easier for your business to move goods and equipment through Edinburgh.

Cargo bikes are a great way to reduce emissions and congestion while saving you time and money - and getting your business noticed!

The electric cargo (ecargo) bikes can carry loads up to 100kg and have been specifically chosen for Edinburgh's streets.

The electric assist makes it easier to move your goods around and up hills.

### How can the Cargo Bike Library help you?

- **Information and advice** about logistical advantages and types of cargo bikes
- **Free training** in the use of cargo bikes for your workforce
- **Free trials** of different types of cargo bikes so you can find one that meets your business needs
- **Flexible borrowing periods** to suit your organisation
- The option to temporarily **brand the bikes** with your logo to increase the visibility of your business

“Having the cargo bikes this year has made a real difference. We have last minute deliveries needed at each site several times a day, so being able to bike things around the city, avoiding traffic queues and busy pavements has been a real bonus for us.”

- Nik Whybrew, Director of Assembly Festival

## Help to borrow, help to buy

Once you have tried out some ecargo bikes and are happy you have found one that works for your business, the Energy Saving Trust can help you with an interest-free eBike Business Loan.

*Union of Genius*, a local soup café in Leith, used a manual cargo bike for their wholesale business. When they needed to replace it they wished to remain carbon neutral rather than invest in a diesel van. The eBike Business Loan helped them to do this and they bought two new ecargo bikes.

Energy Saving Trust's specialist transport advisors provide impartial advice to any organisation in Scotland regardless of size. They can give you information on the interest-free eBike Business Loan which offers organisations up to £30,000 to reduce their carbon impact and covers new ecargo bike(s) for up to £6,000 per bike.

Call Energy Saving Trust on 0800 0931 669 for more information about the eBike Business Loan.

“They are also faster than a van would be, as they can filter through traffic and take advantage of bike paths.”

- Elaine, Union of Genius

“I love them. What more can I say?”

- Anna, Union of Genius
